Professional Summary

Software Engineer with **2.5+ years of experience** in **ASP.NET Core, C#, React.js, SQL Server, and RESTful APIs**. Proven ability to develop scalable full-stack applications, optimize system performance, and deliver secure enterprise solutions.

Work Experience

Software Development Engineer

MRI Real Estate Software

Aug 2024 – Present

- Played a key role in modernizing legacy enterprise applications by migrating them from **VB.NET** to **C#** using **ASP.NET Core Web APIs**, improving maintainability and scalability.
- Developed scalable backend services using **ASP.NET Core**, implementing **JWT authentication, RBAC**, and optimized **RESTful APIs** integrated with **SQL Server**.
- Worked on complete **end-to-end API development**, including API design, implementation, testing, deployment, and production support.
- Built and enhanced secure APIs with validation, exception handling, request/response optimization, and structured logging.
- Collaborated with frontend teams for integrating APIs with enterprise UI applications and improving user workflows.
- Contributed to debugging, refactoring, and performance optimization of large-scale business applications.

Software Development Engineer

Webbybutter Technologies

Jan 2024 – Jun 2024

- Developed scalable backend services using **ASP.NET Core, Entity Framework, and SQL Server** for enterprise business applications.
- Implemented secure **JWT-based authentication** and **role-based authorization** mechanisms for protected APIs.
- Worked on frontend development using **Angular**, creating reusable components, consuming REST APIs, implementing form validations, and collaborating with senior developers to enhance application functionality.
- Worked on frontend-backend integration by consuming **REST APIs** and managing dynamic application state in React applications.
- Developed interactive user interfaces with focus on **component-based architecture**, API handling, and performance optimization.
- Implemented **API rate limiting** and structured application logging to improve monitoring, debugging, and production stability.
- Worked on CRUD operations, API integrations, and SQL query optimization.

Technical Skills

Languages: C#, VB.NET, JavaScript, SQL

Frontend: Angular, JavaScript (ES6+), HTML5, CSS3, Context API

Backend & APIs: ASP.NET Core Web APIs, .NET Core, REST APIs, API Integration

Security & Testing: JWT Authentication, Role-Based Access Control (RBAC), XUnit

Database & ORM: SQL Server, ADO.NET, Entity Framework Core

DevOps & Tools: Azure DevOps, CI/CD Pipelines, Git, GitHub, TFS, Swagger, Postman

Education

Bachelor of Technology – Computer Science Engineering

Parul University

2019 – 2023

CGPA: 8.04
